**Construction**

**“Working Together To Keep You Coming Back”**

Waddick Fuels offers an exceptional line of Petro-Canada lubricants to help you beat the challenges of the construction industry. We offer a complete line of lubricants formulated to ensure peak performance through all types of weather and conditions. Choosing the right lubricants to protect your equipment can have a major impact on your bottom line. We use the patented HT purity process to produce 99.9% pure, crystal-clear base oils, reducing potential equipment damage. You can count on long-lasting wear protection for your equipment, less frequent change-outs, and exceptional cold temperature performance. We help you improve equipment performance and reduce engine wear while increasing productivity.

### **DURON\*-E Heavy Duty Engine Oils**

The DURON-E product line is formulated to meet the challenges of '07 low emissions engines (API CJ-4/SM) and older engines. With DURON-E, you get cleaner engines, less top-ups and fewer change-outs. DURON-E keeps your heavy duty trucks and off-road construction equipment going longer under tough conditions, while reducing your maintenance costs.

### **HYDREX Hydraulic Fluids**

**HYDREX:** HYDREX lasts up to 3 times longer and offers up to 2 times better wear protection than the leading hydraulic oil brand. Its strong oxidative stability minimizes harmful sludge build-up that can lead to wear and shortened filter life.

**ENVIRON:** For construction sites in environmentally-sensitive areas, ENVIRON is the ideal hydraulic fluid. It's free of heavy metals, non-toxic, inherently biodegradable, and recyclable.

## **DURATRAN Transmission/Hydraulic Fluids (THF)**

Whatever your job site, whatever the weather, DURATRAN is proven to last longer than the leading competitors. Its unique Total Temperature Protection formula means less downtime and reduced maintenance costs for hard-working performance in all weather.

**DURATRAN Synthetic:** DURATRAN synthetic delivers top performance through all seasons, eliminating seasonal change-outs. It performs at temperatures below -40°C/-40°F and provides reliable cold and hot weather performance.

**DURATRAN XL Synthetic Blend:** DURATRAN XL Synthetic Blend extended season THF offers exceptional low-temperature performance.

**DURATRAN:** DURATRAN is a premium THF, offering the best high-temperature summer performance.

## **TRAXON Gear Oils**

With its excellent shear stability and longer oil life, TRAXON gives you superb wear protection. It helps extend the life of your construction equipment, reduce downtime and maintenance costs, and improve your bottom-line performance.

**TRAXON E Synthetic** is a premium line of heavy duty, extreme pressure, synthetic gear lubricants, formulated for those who need to maintain an Eaton/Roadranger “extended warranty”.

## **PRECISION Greases**

PRECISION is a multi-application grease line for all your construction needs, from backhoe loaders to compactors.

**PRECISION XL EP1/EP2** is recommended for lubricating heavy duty and general purpose bearings.

**PRECISION EL EP00** is recommended for use in centralized, on-board truck chassis lubricating systems.

**PRECISION MOLY EP1/EP2** is formulated for tough, heavy duty and shock-loaded equipment in construction and off-highway applications.
