

LUBRICANTS

Farm

“Working Together To Keep You Coming Back”

Today's farming equipment is working harder than ever. But if your equipment goes down, so do your profits. Protect your valuable investment by using the very best lubricants. Petro-Canada's lubricants are formulated to overcome your challenges. That's why more Original Equipment Manufacturers (OEMs) approve Petro-Canada lubricants and why more farm operators count on them. Formulated for the toughest working conditions, our lubricants meet or exceed equipment manufacturers' specifications. Not only do we provide superior lubricant products, we actively participate in helping you solve maintenance problems allowing you to be more productive. Whatever you need to make your operation run more smoothly, you'll find there's a Petro-Canada representative who will work with you to help you succeed.

DURON* E Heavy Duty Engine Oils

DURON'S soot-fighting superiority has been demonstrated to last longer to protect vital engine parts and give you cleaner engines, while requiring fewer top-ups and change-outs. DURON E provides advanced rust protection, consolidates your lubrication needs, and reduces costs. DURON E meets the latest industry specifications and OEM approvals, and is available in 15W-40 and 10W-30 grades.

DURATRAN Transmission/Hydraulic Fluids (THF)

As the only product line with the unique Total Temperature Protection* formula, DURATRAN* outperforms major North American competitors, including the leading OEM's brand. Whatever the weather conditions on your farm, DURATRAN* has been demonstrated to last longer than the leading competitor's THF, which translates into less downtime and reduced maintenance costs.

DURATRAN Synthetic: DURATRAN synthetic is a full-synthetic, all season THF, offering the toughest protection in high and extreme low temperatures for year-round protection.

DURATRAN XL Synthetic Blend: DURATRAN XL Synthetic Blend extended season THF offers exceptional low-temperature performance.

DURATRAN: DURATRAN is a premium THF, offering the best high-temperature summer performance.

PRECISION Greases

PRECISION* '3-in-1' greases is a premium multi-application grease line, specially formulated for 3-in-1 protection. PRECISION XL EP 2 and EP 1 meet the NLGI's GC-LB rating for wheel bearing and chassis lubrication. PRECISION greases offer:

- Better long-life protection
- Better water washout protection
- Better extreme pressure protection

Petro-Canada's PRECISION and PEERLESS* greases are ideal for on-farm applications in a wide range of equipment.
